INDEPENDENT AUDITOR'S REPORT

To the unitholders of CAMavor 2 Pension Fund

Opinion

We have audited the accompanying financial statements of CAMavor 2 Pension Fund ("the Fund") which comprise the statement of financial position as at 31 December 2020, and the statement of profit or loss and other comprehensive income, statement of changes in net assets and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2020, and its financial performance and its cash flows for the year ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants (IESBA Code)* and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the management and those charged with governance for the Financial Statements

Management of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operation, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance, but is not a guaranty that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements arise from fraud and error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

CAMavor 2 Pension Fund

Notes forming part of the financial statements for the year ended December 31, 2020

1. About the Fund

CAMavor 2 Pension Fund (the CAMavor 2 or the Fund) is an open-ended contractual investment fund. The Fund represents a voluntary pension fund incorporated in the Republic of Armenia (RA). The Fund was incorporated on 30 April 2013 for an unlimited duration as an open-ended investment company under the laws of RA and under the decision 123-A by Central Bank of Armenia (CBA). The Fund's investment activities are managed by "Capital Asset Management" cjsc (the Manager), license number - 1. The Fund's registered office is 7 Argishtsi, 1st floor office 101, Yerevan, Republic of Armenia. The only shareholder of the Manager is Tigran Karapetyan.

The custodian of the fund is VTB Bank (Armenia) CJSC.

The investment objective of the Fund is to achieve consistent medium-term returns while safeguarding capital by investing in a diversified portfolio of equity securities, interest bearing securities and related derivatives in several currencies. The assets of the fund are mostly invested in securities listed on stock exchanges operating in Armenia, they can also be invested in private securities.

Fund assets may be invested in fixed-income securities including bonds issued by governments, corporations and municipalities as well as in equity securities up to 25% of fund assets. Fund investments may also include bank deposits up to 20% of the Fund assets, investment fund units up to 25% of fund assets, derivative instruments only for hedging purposes. Fund investments may include foreign securities up to 50% of the Fund assets and foreign currency-denominated securities up to 50% of the Fund assets.

The Fund's units are redeemable at the holder's option subject to minimum holding period of two years. The units cannot be traded on the stock exchange.

Armenian business environment

The Funds's operations are located in Armenia. Consequently, the Fund is exposed to the effects of changes of economic and financial markets of Armenia. Armenia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Armenian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government. The financial statements reflect the Fund's assessment of the impact of the Fund's operations on the financial condition of the business environment. The future business environment may differ from management's assessment

Widespread geographical spread of the new type of coronavirus (COVID-19) during the reporting period; its expansion into the territory of the Republic of Armenia, as well as lockdown imposed throughout Armenia from March 16 to April 14 had a significant impact on the Armenian economy. Many companies and individuals are forced to take measures to prevent the epidemic, including travel bans, quarantines, and temporary bans on non-essential services. The Government of the Republic of Armenia has undertaken programs of economic measures in order to neutralize the economic impact of the epidemic. The severity of the epidemic continues to impact as well as the effectiveness of the measures taken to address the problem remain uncertain at this time.

In addition, in 2020 The war unleashed by Azerbaijan against the Artsakh Republic on September 27, 2020, created significant preconditions for political and economic crises, which in turn led to a decrease in the general mood of investors against the dram, an increase in volatility and fluctuations in financial markets.

Such operating environment has a significant impact on the Fund financial situation. The Fund takes the necessary measures to ensure the stability of the Fund's operations, however, due to the unpredictability of developments, the Management does not able to make a reliable assessment of how such circumstances will affect the financial condition of the Fund in the coming years.

CAMavor 2 Pension Fund

Notes forming part of the financial statements for the year ended December 31, 2020 (continued)

2. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards, International Accounting Standards and Interpretations (collectively IFRSs).

The principal accounting policies adopted in the preparation of the financial statements are set out in note 9. The policies have been consistently applied to all the years presented, unless otherwise stated.

The financial statements are presented in Armenian Drams (AMD), which is also the Fund's functional currency. Amounts are rounded to the nearest thousand, unless otherwise stated.

The preparation of financial statements in compliance with adopted IFRS requires the use of certain critical accounting estimates and judgments. The areas where significant judgments and estimates have been made in preparing the financial statements and their effect are disclosed in note 3.

Basis of measurement

The financial statements have been prepared on historical cost basis, except for financial assets at fair value through profit or loss that are measured at fair value.

Changes in accounting policies

a) New standards, interpretations and amendments effective from 1 January 2020

There are no new standards, interpretations and amendments, entered into force from 1 January 2020 and which had significant effect on the Fund's financial statements.

b) New standards, interpretations and amendments not yet effective

There were no new standards, interpretations and amendments that are issued but not yet effective that will have or may have an impact on the Fund's future financial statements.

3. Critical Accounting Estimates and Judgements

The Fund makes certain estimates and assumptions regarding the future. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual outcome may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Fair value measurement

The fair value measurement of the Fund's financial and non-financial assets and liabilities utilizes market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorized into different levels based on how observable the inputs used in the valuation technique utilized are (the 'fair value hierarchy'):

- *Level 1:* Quoted prices in active markets for identical items (unadjusted)
- *Level 2:* Observable direct or indirect inputs other than Level 1 inputs
- *Level 3:* Unobservable inputs (i.e. not derived from market data).

CAMavor 2 Pension Fund

Notes forming part of the financial statements
for the year ended December 31, 2020 (continued)

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognized in the period they occur. The Fund measures fund units at fair value (Note 7).

4. Financial instruments - Risk Management

The Fund is exposed through its operations to the following financial risks:

- Credit risk,
- Fair value or cash flow interest rate risk,
- Liquidity risk,
- Foreign exchange risk.

In common with all other businesses, the Fund is exposed to risks that arise from its use of financial instruments.

This note describes the Fund's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Fund's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods.

(a) Principal financial instruments

The principal financial instruments used the Fund, from which financial instrument risks arise, are as follows:

- Financial assets at fair value through profit or loss
- Cash and cash equivalents
- Payables.

(b) Financial instruments by category

Financial asset	Fair value measurement		Amortized cost	
	2020	2019	2020	2019
	AMD'000	AMD'000	AMD'000	AMD'000
Cash and cash equivalents	-	-	3,001	10,433
Financial assets at fair value through profit or loss	144,646	120,235	-	-
Total	144,646	120,235	3,001	10,433

Financial liabilities	2020	2019	2020	2019
	AMD'000	AMD'000	AMD'000	AMD'000
Trade payables	-	-	240	218
Total	-	-	240	218

(c) Financial instruments not measured at fair value

Financial instruments not measured at fair value include cash and cash equivalents, trade receivables and trade payables.

Due to their short-term nature, the carrying value of cash and cash equivalents, trade receivables and

CAMavor 2 Pension Fund

Notes forming part of the financial statements
for the year ended December 31, 2020 (continued)

trade payables approximates their fair value.

(d) Financial instruments measured at fair value

Financial Instruments fair value hierarchy is presented below:

December 31	Level 2	
	2020 AMD'000	2019 AMD'000
Financial assets at fair value through profit or loss	144,646	120,235

Appendix A details the fair value hierarchy and significant unobservable inputs relating to valuation techniques that are included in Level 3 of the fair value hierarchy.

Credit risk

Credit risk is the risk of financial loss to the Fund if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Fund bears credit risk primarily on investing activities and bank balances. The Fund seeks to control its credit risks by applying monitored investment strategy as well as reasonable judgement in selection of servicing banking partners. The Fund may enter into secured financing transactions such as sale and repurchase agreements or purchase and resale agreements. For secured transactions involving repurchase and resale agreements the Fund is permitted to sell or repledge the securities held as collateral and use these securities to enter into securities lending arrangements or to deliver to counterparties to cover any short positions.

The Fund has policies and procedures for the management of credit exposures (for recognised financial assets and unrecognised contractual commitments).

The maximum exposure to credit risk is generally reflected in the carrying amounts of financial assets in the statement of financial position and in unrecognised contractual commitments. The impact of possible netting of assets and liabilities to reduce potential credit exposure is not significant.

As at December 31, 2020 and 2019 credit risk exposure of financial assets are presented in the table below:

	2020 AMD'000	2019 AMD'000
Cash and cash equivalents	3,001	10,433
Financial assets at fair value through profit or loss	144,646	120,235
Total	<u>147,647</u>	<u>130,668</u>

Cash balances in banks

The Fund believes that the risk of cash at bank can be deemed as insignificant, since the financial institutions selected for investment of the Fund's funds are reliable and authoritative.

Liquidity risk

Liquidity risk arises from the Fund's management of own funds. It is the risk that the Fund will encounter difficulty in meeting its financial obligations as they fall due.

The factors which impacts on the position of the cash and cash flows are including investment activities with securities, temps of subscriptions and maturity of shares. The combination of other factors can cause essential fluctuations on cash position of a certain period of time.

CAMavor 2 Pension Fund

Notes forming part of the financial statements
for the year ended December 31, 2020 (continued)

The Fund's policy is to ensure that it will always have sufficient cash available to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances (or agreed facilities) to meet expected requirements in reasonable timeframe.

The following table sets out the contractual maturities (representing undiscounted contractual cash-flows) of financial liabilities:

Up to 3 months	31 December 2020 AMD'000	31 December 2019 AMD'000
Trade payables	<u>240</u>	<u>218</u>

Fair value or cash flow interest rate risk

The Fund is exposed to the risk that the fair value or income / future cash flows of its financial instruments portfolio will fluctuate as a result of fluctuations in market interest rates. In respect of the Fund's interest-bearing financial instruments, the Fund's policy is to transact in financial instruments that mature such that they best correspond to the maturity of financial liabilities. Nevertheless, the impact of interest rate risk can be high due to fluctuations in the prevailing levels of market interest rates.

Foreign Exchange risk

Currency risk arises from recognized financial assets & liabilities that are not underlined in the Fund's functional currency. The Fund has a policy to manage the impact of foreign exchange risk on the Fund in accordance with the terms of currency diversification set out in the Fund's rules. As of the reporting date, the impact of foreign exchange risk on the Fund is due to USD underlined corporate securities in the investment portfolio.

The table below shows the impact of exchange rate fluctuations as of the reporting date.

Financial assets measured at fair value through profit and loss	31.12.2020 AMD'000	31.12.2019 AMD'000
USD	54,665	41,533
Net currency position	<u>54,665</u>	<u>41,533</u>

As of the reporting date, the effect of a 10% devaluation of the US dollar against the AMD on financial instruments denominated in US dollars (if other data remained unchanged) would result in an increase in net profit for the year (after tax) by 5,466 thousand drams (4,153 thousand drams in 2019) and 10% impact of depreciation on annual profit (after tax) decrease in net assets by the same amount.

CAMavor 2 Pension Fund

Notes forming part of the financial statements
for the year ended December 31, 2020 (continued)

5. Interest income

	2020	2019
	AMD'000	AMD'000
Government treasury bonds	6,594	5,813
Corporate bonds	3,747	2,949
	<u>10,341</u>	<u>8,762</u>

6. Investment management fees

The Manager is entitled to receive a management fee of up to 2% per annum of the net asset value of the Fund, calculated and accrued on each dealing day and payable monthly in arrears. Management fee charged for the year was AMD 2,828 thousand (2019: AMD 2,423 thousand) of which AMD 185 thousand was outstanding at December 31, 2020 (December 31, 2019: AMD 171 thousand).

7. Financial assets at fair value through profit or loss

	2020	2019
	AMD'000	AMD'000
Government treasury bonds	76,262	69,552
Non-government securities	68,384	50,683
	<u>144,646</u>	<u>120,235</u>

8. Net assets attributable to unitholders

The movements in the number of units and net assets attributable to unitholders was as follows

	2020		2019	
	Number of units	Units in AMD'000	Number of units	Units in AMD'000
Balance at the beginning of the year	69,178	130,406	63,059	111,526
Issue of units during the year	12,204	23,826	13,573	24,576
Redemption of units during the year	(7,514)	(14,752)	(7,454)	(13,480)
Increase in net assets attributable to unitholders	-	7,764	-	7,784
Balance at December 31	<u>73,868</u>	<u>147,244</u>	<u>69,178</u>	<u>130,406</u>
Net assets value per unit		<u>1,993</u>		<u>1,885</u>

Units in the Fund are offered at their net asset value per Unit ("NAV") on each business day, information available at 15.00 of the preceding day ("NAV Determination Time"). A business day shall mean a day on which the Armenian Stock Exchange is open. Units will be redeemed at the NAV as of the relevant NAV Determination Time. Investment income earned by the Fund is accumulated and reinvested in the Fund and included in the determination of unit values.

9. Accounting policy

Foreign currency transactions

Transactions in foreign currency are converted into the functional currency at the closing exchange rate as of the day of the transaction, and at the average exchange rate announced by the CBA in case of closing price absence.

CAMavor 2 Pension Fund

Notes forming part of the financial statements for the year ended December 31, 2020 (continued)

Non-monetary assets and liabilities in foreign currencies that are measured at fair value are recalculated at the current exchange rate at the date the fair value of the functional currency is determined.

Exchange differences arising from the foreign currency items account are recognized in profit or loss as net gains/losses on foreign exchange differences, except for financial instruments measured at fair value through profit or loss that are recognized at fair value, the element of net profit or loss arising from the revaluation of financial instruments measured through profit or loss.

Interest income and expense

Interest income and expense, including interest income from non-derivative financial assets measured at fair value through profit or loss, are recognized in profit or loss, respectively, as interest income or expense.

The Fund estimates future cash flows when calculating an effective interest rate, taking into account all contractual terms of the financial instruments but not future debt losses. Interest received or receivable, interest paid or payable, is recognized in profit or loss, respectively, as interest income or interest expense.

Stock transactions and investment income

Stock transactions are accounted for at the date of the transaction (sale or purchase of securities). Interest income is accounted on an accrual basis. Dividends are accounted on the date of the previous dividends. Value of securities is calculated based on weighted average cost.

Stock transactions are accounted for at the date of the transaction (sale or purchase of securities). Interest income is accounted on an accrual basis. Dividends are accounted on the date of the previous dividends. Value of securities is calculated based on weighted average cost.

Short-term and fixed return investments, discounts and commission charges are amortised and classified as investment income. Cost of sold securities are measured by amortised value.

Expenses

All expenses, proper charges and disbursements of the Manager in the performance of its duties under the CAMavor 2 Pension Fund Rules may be charged to the Fund. The management fees charged to the Fund is 2%

Management fees charged from the Fund are set out in Note 7.

Financial instruments

The Fund recognizes the financial assets and liabilities in the statement of financial position when it becomes a party to the financial instrument contract. Regular way purchases and sales of financial assets and liabilities are accounted for at the end of the reporting period. Regular way purchases or sales of financial instruments are the purchase or sale of financial assets that require delivery of the assets within the time frame established generally by regulation or convention in the marketplace concerned.

Financial assets or liabilities are initially measured at fair value. In the case of financial assets or liabilities that are not classified in the group of financial instruments measured at fair value through profit or loss, the transaction costs are added (or removed) to the fair value, which are directly attributable to the purchase or issue of a financial asset or liability. Transaction costs that are directly attributable to acquisition of financial assets or financial liabilities "measured at fair value through profit or loss" are recognized immediately in profit or loss.

Financial assets

Financial assets are classified in the following categories: (a) financial assets measured at fair value through profit or loss (FVTPL); (b) financial assets measured at fair value through other comprehensive income (FVOCI); c) financial assets measured at amortized cost. The classification depends on the

nature of the cash flows resulting from the financial assets and the business model, under which the asset is held and designated at the time of initial recognition.

Financial assets at fair value through profit or loss

Financial asset is classified as "measured at fair value through profit or loss" if it is classified neither as measured at amortized cost (as described below) nor as measured at FVOCI (as described below). Additionally, at initial recognition, the Fund may irrevocably designate any financial asset (which meets the criteria for being measured at amortized cost or at FVOCI) as measured at FVTPL, if this eliminates or essentially reduces the accounting mismatch that could otherwise have arisen.

Financial liabilities measured at amortized cost

A financial asset is classified as measured "at amortized cost" if it complies with the following two conditions and has not been designated as measured at FVTPL:

- It is held under a business model, which aims at holding assets to collect contractual cash flows; and
- Its contractual terms give rise to cash flows on the specified dates, which are solely interest payments on principal and outstanding principal.

Financial assets, which are debt instruments and are not classified as measured at FVTPL, are subject to impairment test using the expected credit loss model. According to this model, a credit loss provision should be recognized in the amount of expected credit losses (ECL) during 12 months after the reporting date. However, if the instrument's credit risk has significantly increased since its initial recognition, the provision should be recognized for the whole life of the instrument in the amount of ECL.

Derecognition of financial assets

The Fund derecognises financial assets when the contractual rights with respect to cash flows resulting from the financial asset become void, or when these rights are transferred to a third party. If the Fund substantially neither transfers nor retains all the risks and returns related to ownership of the financial asset, but retains control over the transferred asset, the Fund continues to recognize the financial asset, as well as its associated liability to the extent that its involvement in the financial asset is kept. If the Fund substantially retains all the risks and returns related to ownership of the financial asset, the Fund shall continue to recognize the financial asset, as well as the borrowing pledged as collateral for the received return.

Financial liabilities

Financial liabilities are classified as measured "at fair value through profit or loss" (FVTPL) or other financial liabilities.

Financial liabilities measured at fair value through profit or loss.

Financial liabilities are classified as measured at fair value through profit or loss when the financial liability is held for sale or classified as measured at fair value through profit or loss.

A financial liability is classified as held for sale if:

- it has been acquired primarily for a short-term repurchase; or
- initial recognition, it forms a part of the portfolio of certain financial instruments managed jointly by the Fund and has a realistic possibility of short-term profit making; or
- it is a derivative instrument that is not intended or used as a hedging tool.

A financial liability not held for trading purposes may be classified as measured at FVTPL at the time of recognition, if:

- such classification excludes or significantly reduces the measurement or recognition mismatch that would otherwise have occurred; or

CAMavor 2 Pension Fund

Notes forming part of the financial statements for the year ended December 31, 2020 (continued)

- a financial liability forms a part of financial assets or financial liabilities or the group of assets and liabilities, which is managed and whose performance is evaluated on a fair value basis in accordance with the Fund's documented risk management or investment strategy, and the grouping information is provided internally on these grounds; or
- It is a part of the contract, that contains one or more of the embedded derivatives, and the entire contract (assets or liabilities) is classified as measured at FVTPL.

Financial liabilities measured at FVTPL are presented at fair value, and the gain or loss arising from their remeasurement is recognized in profit or loss except for the change in the fair value from the part attributable to the credit risk, which is presented in other comprehensive income.

Financial liabilities measured at amortized cost

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, recognizing the interest expense on the basis of efficiency.

Derecognition of financial liabilities

The Fund derecognizes a financial liability only when the Fund's obligations are repaid, canceled, or become void. When a financial liability to the same lender is replaced by another financial liability (the terms of which substantially vary from the previous one), or there has been a material change in the terms of the present liability, such replacement or change is recognized as derecognition of the original liability and recognition of a new liability. The difference between the carrying amount of the derecognized financial liability and compensation paid and payable is recognized in the statement of comprehensive income.

Securities purchased and redeemed under the REPO agreement

The Fund enters into financial assets sale and purchase back agreements ("repos") and financial assets purchase and sale back agreements ("reverse repos"). Repos and reverse repos are utilized by the Fund as an element of its treasury management. A repo is an agreement to transfer a financial asset to another party in exchange for cash or other consideration and a concurrent obligation to reacquire the financial assets at a future date for an amount equal to the cash or other consideration exchanged plus interest. These agreements are accounted for as financing transactions. Financial assets sold under repo are retained in the financial statements and consideration received under these agreements is recorded as collateralized deposit received within depositary instruments with banks. The Fund enters into securities repurchase agreements under which it receives or transfers collateral in accordance with normal market practice. The transfer of securities to counterparties is only reflected on the statement of financial position if the risks and rewards of ownership are also transferred.

Tax

Under present law governing the Fund in Armenia, the Fund is not subject to tax on income, profits or capital gains or other taxes payable. The unitholders of the Fund are individually liable for their share of the Funds' income.
